One of the primary goals of the Completion Agenda is to increase the number of graduates by the year 2020. WCCCD is truly embracing this initiative with the three-fold increase in students completing a program or certificate when compared to 2007 results. We’re proud of the graduation rates at our institution and realize that these successes are the result of a true team effort—faculty, staff, administration, and most importantly, the students. We are all excited to see the continuation of these trends as we move into the new academic year!
WCCCD CONTINUES TO DEVELOP NEW PROGRAMS FOR OUR COMMUNITY!

Wayne County Community College District continues to develop new and exciting career programs for our community! This fall we will be introducing several new program opportunities for our community which lead to high skill, high wage, and high demand careers. We know that a key for our student’s success is to make sure that we stay on the cutting edge and by providing our students with jobs for today, as well as jobs for the future.

STUDENT SUCCESS STORIES ABOUND AT WCCCD!

All of us at WCCCD try to make a difference in the lives and careers of those we serve. It is very rewarding to see this become reality for our students. Michael Williams, Adeyinka Sanusi, and Renita Houston are three stellar examples of how we make the Completion Agenda come to life. All three are recent graduates of WCCCD and feel that through the efforts of those that guided them they will have a promising career in their future. All are moving on to four year institutions and a future that allows them to achieve their educational pursuits. As Michael Williams states, “I don’t think I would have finished school if not for WCCCD.”

Best of luck to all three of you as you move forward with your education!
