Early Childhood Education

PAY

The median annual wage for preschool teachers was \$28,570 in May 2015.

JOB OUTLOOK

Employment of preschool teachers is projected to grow 7 percent from 2014 to 2024, about as fast as the average for all occupations. Growth is expected due to a continued focus on the importance of early childhood education and the growing population of children ages 3 to 5. Employment of childcare workers is projected to grow 5 percent from 2014 to 2024, about as fast as the average for all occupations. Growth is expected due to increases in the number of children who require childcare and continued demand for preschool programs.

ABOUT THE PROGRAM

The Early Childhood Education Program offers a Short-Term Certificate as a Child Development Associate (CDA) and an Associate of Applied Science degree in Early Childhood Education. The program prepares students to work as child care administrators, teachers, and caregivers in early childhood settings. The CDA Training program is designed for the childcare worker wishing to become a Child Development Associate (CDA).

The CDA Credential is independently awarded by the National Council for Professional Recognition to those demonstrating competence in their work with children in early education and childcare programs.

The Child Development Associate (CDA) focuses on child development methods and strategies to motivate learning in the five developmental areas. Graduates become responsible for the care and education of children up to five years old by creating and maintaining a safe and healthy learning environment, guiding behavior, planning curricula, implementing learning activities, and working cooperatively with staff and parents.

**Selected WCCCD courses will transfer to some colleges and universities to meet requirements for an Elementary Education Certification—Early Childhood Endorsement. (See a counselor or academic advisor for more information)*

WHAT DO EARLY CHILDHOOD EDUCATION AND CHILDCARE WORKERS DO?

Childcare workers care for children when parents and other family members are unavailable. They care for children's basic needs, such as bathing and feeding. In addition, some help children prepare for kindergarten, and many help older children with homework.

WHERE DO THEY WORK?

Childcare workers care for children in childcare centers, their own home, or the homes of the children in their care. Preschool teachers work in public and private schools, childcare centers, and charitable organizations. Many work the traditional 10-month school year, but some work the full year.
