Library Technology

ABOUT THE PROGRAM

The Library Technology Certificate program prepares students for employment in the library industry. Students will learn about the different departments, library types and issues within library science. The areas of service including circulation, reference and technical services will all be explored. The course objectives are reached by the use of case analysis, research papers, technology, tours and group projects.

WHAT DO LIBRARY TECHNICIANS DO?

Library technicians and assistants help librarians acquire, prepare, and organize materials. They also do other tasks that are needed to run a library.

WHERE DO THEY WORK?

Library technicians and assistants usually work at desks or computer terminals inside libraries. They also work in the library stacks while cataloguing or shelving books.

PAY

In May 2015, the median hourly wage for library technicians and library assistants was \$13.43.

JOB OUTLOOK

Employment of library technicians and assistants is projected to grow 5 percent from 2014 to 2024, about as fast as the average for all occupations. Libraries will use these workers to take over some of the duties of librarians, whose hourly wages are usually higher.

Bureau of Labor Statistics, U.S. Department of Labor, Occupational Outlook Handbook, 2016-17 Edition, Library Technicians and Assistants, on the Internet at <http://www.bls.gov/ooh/education-training-and-library/library-technicians-and-assistants.htm>
