Phlebotomy Technician

PAY

The median annual wage for phlebotomists was \$31,630 in May 2015.

JOB OUTLOOK

Employment of phlebotomists is projected to grow 25 percent from 2014 to 2024, much faster than the average for all occupations. Hospitals, diagnostic laboratories, blood donor centers, and other locations will need phlebotomists to perform blood work.

Bureau of Labor Statistics, U.S. Department of Labor, Occupational Outlook Handbook, 2016-17 Edition, Phlebotomists, on the Internet at <http://www.bls.gov/ooh/healthcare/phlebotomists.htm>

ABOUT THE PROGRAM

The Phlebotomy Technician College Certificate program introduces students to the chief responsibilities of the position which include drawing blood and conducting other specimen collections. The phlebotomist must recognize any conditions that might alter collections, correlate types of lab tests to the written diagnosis, and communicate with both the laboratory and the patients to provide the best possible care. Graduates of the phlebotomy program will be competent in multiple skills of specimen collection, have a strong medical terminology background and possess excellent interpersonal skills.

WHAT DO PHLEBOTOMISTS DO?

Phlebotomists draw blood for tests, transfusions, research, or blood donations. Some explain their work to patients and provide assistance when patients have adverse reactions after their blood is drawn.

WHERE DO THEY WORK?

Phlebotomists work mainly in hospitals, medical and diagnostic laboratories, blood donor centers, and doctor's offices.
