Pre-Physician Assistant

PAY

The median annual wage for physician assistants was \$98,180 in May 2015.

JOB OUTLOOK

Employment of physician assistants is projected to grow 30 percent from 2014 to 2024, much faster than the average for all occupations. Increased demand for healthcare services from the growing and aging population and widespread chronic disease, combined with a shortage of physicians, will result in increased demand for healthcare providers, such as physician assistants.

Bureau of Labor Statistics, U.S. Department of Labor, Occupational Outlook Handbook, 2016-17 Edition, Physician Assistants, on the Internet at <http://www.bls.gov/ooh/healthcare/physician-assistants.htm>

ABOUT THE PROGRAM

The Pre-Physician Assistant program is designed to prepare students for transfer to a Physician Assistant program at a four-year college or university. The curriculum is academically rigorous and provides the knowledge base necessary to complete the baccalaureate degree and continue to the master's degree level physician assistant curriculum.

WHAT DO PHYSICIAN ASSISTANTS DO?

Physician Assistants, also known as PAs, practice medicine under the direction of physicians and surgeons. They are formally trained to examine patients, diagnose injuries and illnesses, and provide treatment.

WHERE DO THEY WORK?

Physician Assistants work in physicians' offices, hospitals, and other healthcare settings. Most work full-time.
