When you are on campus, keep these safety tips in mind:

- Take the safest route, not the fastest route
- Never walk alone, use the buddy system
- Know where the emergency telephones are located
- Stay alert to your surroundings and the actions of people around you
- Avoid displaying large amounts of cash or other tempting targets such as jewelry or expensive cell phones
- Always lock your car and keep valuables out of sight
- Check the back seat of your vehicle before getting in
- Park in well lit and busy areas
- Carry your purse or book bags close to your body
- Be alert and look around when using ATMs
