Course Syllabus
Wayne County Community College District
DA 107 Introduction to Expanded Functions

CREDIT HOURS: 2.00

CONTACT HOURS: 30.00

COURSE DESCRIPTION:
This lecture/laboratory is one of the courses designed to prepare the student to sit for the Registered Dental Assistant examination in the State of Michigan. Topics to be included, but not limited to: infection control basics, disease transmission, hazardous waste management, placement and removal of non-metallic temporary restorations, removing excess cement from supragingival surfaces of a tooth with nonrotary instruments and fabrication of provisional temporaries.

EXPECTED COMPETENCIES
Upon successful completion of this course, the student will:
1. Collect diagnostic and treatment data
2. Manage infection and hazard control
3. Perform clinical supportive treatments
4. Take diagnostic radiographs
5. Perform dental laboratory procedures
6. Provide patient oral health instruction
7. Assist in managing medical emergencies
8. Model professional behaviors, ethics, and appearance
9. Carry out dental office procedures
10. Perform expanded functions legal in Michigan

ASSESSMENT METHODS
Student performance may be assessed by examination, quizzes, case studies, oral reports, group discussion, written reports or presentations. The instructor reserves the option to employ one or more of these assessment methods during the course.
