Students will gain hands-on experience with basics of Scala programming. As an advanced outgrowth of Java Technology, Scala operates on top of Java machines and has become a key tool demanded by employers in Big Data analysis for businesses and sciences.

It is not required to have a prior knowledge of Java, Scala, or Big Data. Basic familiarity with only one programming language such as C, C++, Fortran, Java or C# is sufficient. The basics of Java and Big Data technologies will be presented, while Scala (Scalable Language) will be the main concept.

**Course #: CSTT 6039 • CRN: 44299**  
**Fee: \$45.00**

**Northwest Campus**  
**8200 West Outer Drive, Detroit, MI 48219**

**Instructor: Javad Abdollahi**

**Tuesdays and Thursdays • 6:00 P.M. - 8:00 P.M.**

**Date: 1/29/19 – 4/18/19**
