DHY 209 - CASE CARE PLAN ASSIGNMENT INSTRUCTIONS

Students will be assigned to groups and given a case to review that may include a synopsis of a client history, medical information, dental history, oral hygiene status, intraoral photographs, chartings and radiographs. Based upon the information given, each group must develop a care plan according to the criteria outlined on the next page. Students will be expected to meet outside of class to further discuss the case and to type it up for submission. The instructor will assign a grade to the paper based on the criteria given. Then each student will receive a grade based upon their input of the final grade according to the following:

- For each meeting, each student may earn up to $40.00 for their attendance and participation.
- In the final five to 10 minutes of each session, each group will decide how much to pay each participant.
- Participants may not receive full pay for any session in which they did not fully participate.
- Pay should be determined by consensus. In case of disagreement, group should use majority rule.
- If a group member is absent the member receives nothing for that session. If all group members agree, however, the individual may earn the dollars by doing work outside of the class to aid the group; note: the group member must earn this money. Further, a full explanation of this transaction must accompany the pay records.
- A good excuse may not be substituted for pay.

Example Payroll Form:  John

<table>
<thead>
<tr>
<th>Date</th>
<th>Work</th>
<th>Earnings</th>
</tr>
</thead>
<tbody>
<tr>
<td>10/15/00</td>
<td>Session #1</td>
<td>$40</td>
</tr>
<tr>
<td>10/17</td>
<td>Session #2</td>
<td>$40</td>
</tr>
<tr>
<td>10/23</td>
<td>absent</td>
<td>0</td>
</tr>
<tr>
<td>10/25</td>
<td>typed</td>
<td>$30</td>
</tr>
<tr>
<td>Subtotal</td>
<td></td>
<td>$110</td>
</tr>
</tbody>
</table>

Total possible earnings for 3 sessions $120

$110/$120 = 91.67% x grade given by teacher 95% = 87%
