

Gain the skills needed to navigate the connections between community development, local governments, and business. Learn how you can participate in your community's efforts to take control of their economic development. Participants will be exposed to best practices to incorporate a personal strategy for engaging in regional development.

- ***Structures, Resources, and Processes for Community Development:***  
Examine the infrastructures of local and best practices for regional development
- ***Land and Property Acquisition as a Strategy for Development:***  
Demystify strategies for personal and community building through land acquisition
- ***Leveraging Your Community Resources:***  
Understanding fiscal options that support personal and community building
- ***Builds communities through an entrepreneurship approach:***  
This dynamic workshop is designed to empower individuals and organizations with the tools and strategies needed to build strong, resilient communities through entrepreneurship.
