Chancellor’s Strategic Imperatives for the Long-term Future of WCCCD

In a series of Weekend Memo articles, my recently published 14 imperatives for the long-term future of WCCCD will be presented and explained. These strategic imperatives are not directives or plans, but rather the basis for study, dialogue, and actionable insights at all levels regarding dimensions of WCCCD’s long-term future that are vital, essential, and crucial. It is the responsibility of the executive leadership of WCCCD to activate strategic behavior at all levels of the District. In an increasingly turbulent and rapidly changing environment, it is vital that we become more innovative and entrepreneurial. We can proceed with confidence, building on the adaptiveness and creativity exhibited by the faculty and staff during the pandemic.

The 2022-2026 Strategic Plan will provide guideposts for the continuous improvement of WCCCD during the next five years. However, at a historical inflection point in WCCCD’s post-pandemic development, we need the leverage of time beyond a five-year horizon to bring about continued transformational change. In 2002, WCCCD’s Board of Trustees and executive leadership envisioned the Pathways to the Future initiative that has brought about three phases of transformational change during the past 23 years (Pathways I, II, and III). I now invite faculty and staff at all levels to think beyond a five-year horizon to envision WCCCD in the year 2030 or 2035; that is, to activate Pathways IV by becoming “future thinkers” about their specific divisional, campus, discipline, program, and unit as well as about WCCCD as an enterprise. For example, what is the long-term future of liberal arts and general education, the library, career education, teaching and learning technologies, and student services at WCCCD? By what processes will we anticipate the impact of regional, state, national, and global demographic, economic, political, technological, cultural, and environmental trends on the future of WCCCD and then take early actions to proactively respond to those long-term trends? In what ways will our role as “future thinkers” bring about changes in our strategic goals and annual action plans at all levels?

In the next issue of the Weekend Memo, the first of the Chancellor’s Strategic Imperatives will be presented and explained: Reinvent WCCCD’s diversity, equity, and inclusion (DEI) practices as an overarching imperative for all redesign and improvement initiatives.
Mr. Amoles from the Brick Layers Local 2 shared apprenticeship opportunities with students in the Construction Trades Training Program.

Brad Pierce from the Ironworkers Union spoke with students regarding career opportunities once they graduate.

Jordan Miller from National Elevator Industry Education Program (NEIEP) spoke to students regarding the importance of NEIEP in shaping students’ careers in the elevator industry. NEIEP provides comprehensive training and education that equips students with the necessary skills to excel in this specialized field.

CTTP students learn how to frame a wall.

Commercial Driver's License Training Program

CDL Class B
DDOT and WCCCD Partnership

The Detroit Department of Transportation Class B partnership kicked off this week at the former Northwest Campus on Joy Road and Greenfield. DDOT officials will enroll and hire a minimum of 15 students per month. Students will be enrolled in the CDL Class B licensure training at WCCCD, DDOT instructors will perform all training activities, and students will earn $17 per hour for the duration of the training and be promoted immediately upon receiving their license to be a driver earning $22 per hour.

New Brand! Cool Tech Kids Camp

Jefferson Middle School is planning to enroll a portion of their summer school students in the newly rebranded Cool Tech Kids, previously the Cool Kids Code Summer Camp and Sports Clinic. The camp will be held at the Northwest and Eastern campuses starting July 25, 2023 and will focus on video creation and editing.

Kim Smouter and Brendan Prebo from the Michigan Department of Labor worked with students in the Construction Trades Training Program to enroll them into the Michigan Apprenticeship Program.

One Vision, One District, One College
Marathon Petroleum’s Emergency Response Team

The Michigan Institute for Public Safety Education (MIPSE) hosted Marathon Petroleum’s Emergency Response Team (ERT) training course on fire tactics.

Wayne County Sheriff Department Special Response Team Movement Training

The Special Response Team performed tactical law enforcement training.

Lifeline Ambulance - Coaching Emergency Vehicle Operations (CEVO)

WCCCD District Police Authority

Active Shooter and CPR Training
The Division of Student Services hosted a recognition luncheon for student participants in the PepsiCo Uplift Scholarship Program. This program is designed to support Black and Hispanic students enrolled in career/technical education fields of study. This program offers support services and coaching to help students complete their education and obtain jobs in high-growth, high-demand fields.
Prepared for the Fall 2023 Semester

Dr. Tammy Anderson and Mazharul Islam met to discuss best practices and registration strategies for the Fall 2023 semester.

Student Success Center

The data reflects the number of students assisted by the Division of Student Services for the week of June 26, 2023.

Federal Work-Study Program

The FWS program continues to orientate new students on the processes and procedures of the program. Students are able to work in areas that cater to their program of study and gain knowledge and mentorship from faculty, staff, and community partners.

International Students

Staff continue to assist our international students with registration for the Summer and Fall 2023 semesters.

Admissions and Records

Staff continue to process Web admissions for Fall 2023.

Perkins

Ericka Warren and Yolanda Russell met to discuss program updates, current best practices and resources that could best serve current TRiO students.
Phi Theta Kappa (PTK)

Alpha Upsilon Zeta Chapter held its 2023 annual PTK election. We look forward to working with each of the newly selected officers.

Michigan College and University Partnership - MiCUP

Dr. Ashanti Israel attended the Administrative Conference and MiCUP the Research Symposium for the interns at Michigan Technological University. WCCCD interns did an amazing job speaking about their research and continued research efforts.

Financial Aid

The District Financial Aid Office offers students information on responsible borrowing. There are options to choose from for repayment of student loans.
Practical Nursing Education faculty attended a professional development session conducted by Tina Rayfield.

Set-up of the new Practical Nursing Education lab at the Ted Scott Campus is underway.
WCCCD hosted the Detroit Drives Degrees Community College Collaborative (D3C3) Employer-led Sector Strategies (Mobility) Cluster meeting this week at the Curtis L. Ivery Downtown Campus. Local employers, regional community colleges, and philanthropic partners met to discuss and align educational outputs with employer demand to strengthen the state and regional talent pipeline.

**Developmental English and Math Redesign Team Meetings**

Staff met with the Math and English Developmental Redesign teams to discuss the summer pilot program. Both teams provided updates on how their classes are going, insight into student engagement and responses, and ideas for training additional faculty.

**Academic Catch Up Program**

Staff and instructors met to discuss program logistics for the Fall 2023 semester.

**Career Advisory Committee Planning**

Staff from the Division of Educational Affairs met to discuss the next Career Advisory Committee Meeting.
As a part of our Pathways to Success: The Best is Yet to Come professional development series, we held a workshop titled “Healing a Grieving Heart” with Greg Dunmore and Dr. Portia Lockett at the Curtis L. Ivery Health and Wellness Education Center. The workshop focused on encouraging and increasing one’s ability of identifying grief and being proactive with the healing journey process.

Another professional development workshop titled “Say it Loud, I’m at WCCCD and I’m Proud” also featured Greg Dunmore at the Curtis L. Ivery Downtown Campus.

The Retirement Committee met to plan the August 2023 celebration!

More information coming soon!
Virtual Intercultural Conversations

Fathema Khanam presented on the Muslim celebration of Eid al Adha.

Bruce Ewen presented on the history of Carribean American Heritage Month.

Dr. Fidelis D’Cunha presented on the significance of Pride Month.
The School of Continuing Education

The Summer basic industrial sewing class for refugee women.

Mary Ellen Stempfle University Center

Weekly Continuing Education Enrollment
May 22, 2023 – June 3, 2023
WCCCCD Family Fireworks!
Summer Swish Youth Basketball Camp

The Summer Swish Youth Basketball Camp continued this week with athletes learning developmental techniques on the court while having fun with peers.

WCCCD Staff Join in on the Fun Too!

Staff members finished a dance fusion workout at the Health and Wellness Education Center.

Wildcats Working Out!

Student athletes utilized the fitness floor for a pre-practice workout.

Marketing Initiatives Meeting

The team met with representatives from HealthFitness to discuss fitness industry marketing initiatives for the Health and Wellness Education Center.
So much is changing rapidly in almost every arena of life. We live with constant changes in higher education. Just as in education, two other areas that are undergoing dramatic changes are health care and the insurance industry, which directly impacts health care. Many of us have likely experienced changes in medical insurance coverage that may have even influenced us to change doctors for better coverage.

A deeper analysis of the issue exposes its complexity. While “it would be easy to blame insurance companies, it really has become a problem of trust, notes Cloud in his book, Integrity. Gone are extended stays in the hospital and coverage of a wide range of tests to determine the nature of a medical problem. Now there are more limits on what insurance will cover.

“In part, because people milked the system for what they could get out of it, without thinking of the bigger picture,” families may be less well served medically today. This is an important life lesson and also applies to higher education: anything of value can be diminished by individuals who do not keep their eyes on the bigger picture.
Nicole Black represented the District at Michigan College Access Network’s Conference for all college completion coaches.

The new National Oceanic and Atmospheric Administration (NOAA) Weather Radios were installed at the Curtis L. Ivery Health and Wellness Education Center and at the Eastern Campus. These radios are to alert staff of severe weather.

George Lowe and Rachel Scott trained the staff at the Curtis L. Ivery Health and Wellness Education Center on the use of the Evacuation Chair.

Dear Chancellor Dr. Ivery,

Just a short note to let you know how wonderful your team at the Mary Ellen Stempfle University Center and the Center for Learning Technology, have been to work with our communities here on the eastside. They have continued the legacy of Dr. Sandra Robinson with inclusiveness, availability and most importantly kindness. Kimett Hackworth and Denis Karic are always there to offer their support to each community group that wishes to use the Center. What is so wonderful about this, is their whole team works together to make sure that every group that uses the facilities has the best experiences possible. My hat is off to you Chancellor Dr. Ivery for having the vision of keeping the legacy of Dr. Robinson alive through the people that you keep in place at the University Center. As you may know that I am alumni of WCCCD and the University Center.

Sincerely,
Harper Woods Mayor Valerie J. Kindle
Staff from the Division of Information Technology met with the Eastern Campus Regional Training Center team regarding technology needs for the Mechatronics Lab.

Campus Data Closet Re-engineering Project
Ted Scott Campus

Staff from the Division of Information Technology and Facilities met to discuss project details and conduct a walkthrough.
Community Partners

Representatives from Focus Hope participated in a training session at the Mary Ellen Stempfle University Center.

Family Center Meeting

Denis Karic and Kimett Hackworth met with MaryJo Harris, Director of Programs and Administration at the Family Center of Grosse Pointe and Harper Woods, to discuss strategies for collaboration.

Grosse Pointe Chamber of Commerce Meeting

Denis Karic, Dr. Harvey Dorrah, and Kimett Hackworth met with Jenny Boetcher, Grosse Pointe Chamber of Commerce President, and Abigail Turnbull, Membership and Event Coordinator, to discuss partnership opportunities.

First Day of Summer 2023 Classes for Dual Enrollment Students
Staff from the Curtis L. Ivery Downtown Campus met with representatives from the Great Lakes Water Authority to discuss partnership workshops for the Fall 2023 semester.

Continuing Education

The Learning Resource Center at the Curtis L. Ivery Downtown Campus conducted an orientation for ENG-119 students. Participants obtained information on the resources available to assist with completing their research papers.

Professional Development

Campus staff participated in a training session on Zendesk, the new Information Technology Ticketing System.

Learning Resource Center

The Language Institute students celebrated the memories of the past several semesters of practicing their language, communication, and team building skills with pizza, snacks and a slideshow of their workshop photos.
Leo Rocha replaces lighting throughout the Ted Scott Campus.

Stairs makeover at the Eastern Campus!
