

# ANNOUNCEMENT

**Wayne County Community College District**

## **Veterinary Technology Program Discontinuation of the Program**

“Wayne County Community College District continually reviews its programs to ensure its ability to respond to its constituents and their expectations in the communities in which we serve. A recent review of the District’s health science programs resulted in the discontinuation of its two-year veterinary technician program. The program will not be admitting new students beginning this academic year. Students currently enrolled in the program will be allowed to finish the program and receive their Associate Degree in Applied Science. Please visit [www.wcccd.edu](http://www.wcccd.edu) or call 313-496-2600 to explore one of our other 120 career-track programs.”
