Digital Media Production

PAY

In May 2019, the median annual wage for film and video editors was \$59,810. Salaries vary as many individuals in digital media are self-employed, but can average around \$70,000 for the more technically oriented graphic technologist. Film and video editors can earn \$63,780.

JOB OUTLOOK

Employment of film and video editors and camera operators is projected to grow 11 percent from 2018 to 2028, faster than the average for all occupations. These occupations should have intense competition for jobs, and those with more experience at a TV stations or on a film set will likely have the best job prospects.
