Short Term Certificate Programs

Cascading Style Sheets Certification

Program Overview: Cascading Style Sheets is a vital tool in the web professional's toolkit. Cascading Style Sheets allows you to control the rendering- e.g. fonts, colors, leading, margins, typefaces, and other aspects of style- of a Web document without compromising its structure. This skill is a must have for any web developer.

- ✓ **NEW- BASIC HTML PRIMER:** Participants will learn to illustrate, provide graphics, and place links within pages. In addition, participants will learn to design and arrange visual content to create a desired image or effect.
 - ✓ **NEW-CASCADING STYLE SHEETS LEVEL I:** Participants will learn the history of HTML and CSS. Master the task of building a basic style sheet to format your HTML text and tables using Cascading Style Sheets.
 - ✓ **NEW- CASCADING STYLE SHEETS LEVEL III:** Participants will master using cascading style sheets to work with colors, backgrounds, tables and customizing list. Participants will also learn to manage page layout and positioning elements with cascading style sheets.
