Educational Affairs

March 13, 2020

Dear Faculty,

WCCCD continues to work with the CDC, Michigan Department of Public Health, local health authorities, and our educational partners to ensure the best possible information is considered and implemented as we make decisions to continue course instruction. We have been discussing various options for faculty to continue to deliver the high quality of instruction that our students have come to expect. Early next week we will be in contact with you regarding options for alternate methods of instructional delivery in preparation for classes to resume on March 23, 2020. We know these are unprecedented circumstances, and we appreciate your understanding and patience during this time. We are committed to keeping you fully informed as the situation evolves.
