# SUSTAINABLE APPROACHES TO THE EVERYDAY LANDSCAPE

---

**MARCH 21, 2018**

7:00 p.m. – 8:30 p.m.

**DOWNRIVER CAMPUS**

**Ray Mix Room**

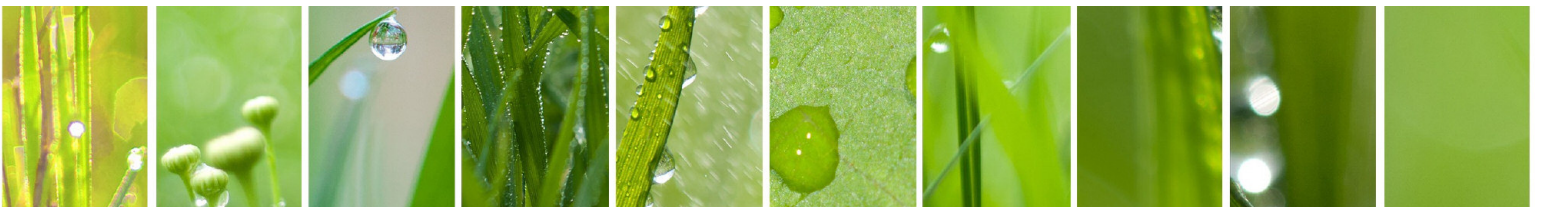

21000 Northline Road  
Taylor, MI 48180

## **SPEAKER DESCRIPTION**

Dr. Robert E Schutzki is an Associate Professor in the Department of Horticulture at Michigan State University with responsibilities in teaching and extension. Bob conducts research on topics including plant exploration, plant evaluation, sustainable landscape development and management, and invasive species assessment.

## **TOPIC DESCRIPTION**

Regardless of whether you are a grower, designer, retailer or homeowner with a hobby in gardening, we are always looking for new sustainable approaches to our landscape. Join us to learn about exciting and sustainable methods to design, plant selection, composting and management of your landscape.

FOR MORE INFORMATION, PLEASE CALL THE DOWNRIVER CAMPUS AT 734-946-3500
