Robotics Programming and Animation Creation
for 5th & 6th graders
Campers will program Dash robots using block-based programming and create animation using the Alice app. During their programming, campers will be able to watch their programming in real-time.

Robotics Programming and App Development
for 7th & 8th graders
Campers will learn how to build fully functional apps with MIT App Inventor and enhance their critical thinking and problem-solving skills while programming Lego robots.

During the sessions, campers will have an opportunity to meet with professional women and men who work in technological fields and explore the many exciting and rewarding tech career options across the state of Michigan.
