This year’s theme conveys both the need for urgent action and persistent hope, driven by the power of girls’ voices and vision for the future.

Today’s generation of girls is disproportionately affected by global crises of climate, conflict, poverty and pushback on hard won gains for human rights and gender equality. Too many girls are still denied their rights, restricting their choices and limiting their futures.

Every day, they are taking action to realize a vision of a world in which all girls are protected, respected and empowered.
